

AUTHOR INDEX

VOLUME 12

Arens, Max, 612
Ashley, Rhoda L., 1

Blackall, P. J., 627
Burt, Austin, 126
Busse, William W., 9

Cardenas, Maria E., 583
Chung, Namjin, 583
Clark, Douglas P., 554
Cowan, Marjorie Murphy, 564
Cruz, M. Cristina, 583

Dankert, Jacob, 633
Darwin, K. Heran, 405
Del Poeta, Maurizio, 583
Domachowske, Joseph B., 298
Doniger, Jay, 367

Erice, Alejo, 286
Evans, Robert W., 224

Fidel, Paul L., Jr., 80
Franzen, Caspar, 243

Geiser, David M., 126
Gené, Josepa, 454
Gern, James E., 9
Ghannoum, Mahmoud A., 501
Guarro, Josep, 454

Hall, Laurie R., 445
Harris, David A., 429
Heitman, Joseph, 583
Hide, Geoff, 112
Hitchcock, Christopher A., 40
Howard, Dexter H., 394

Joannou, Christopher L., 224

Kaufmann, Stefan H. E., 19
Kierszenbaum, Felipe, 210
Koufopanou, Vassiliki, 126

Ladhani, Shamez, 224
Latgé, Jean-Paul, 310
Le Bouguénec, Chantal, 180
Lochrie, Denise P., 224

Mahoney, Francis J., 351
Maurin, M., 518
McDonnell, Gerald, 147
Miller, Virginia L., 405
Monath, Thomas P., 383
Morello, Josephine A., 183
Mostafa, M. H., 97
Müller, Andreas, 243
Muralidhar, Sumitra, 367

O'Connor, P. J., 97

Pearlman, Eric, 445
Perfect, John R., 583
Poston, Susan M., 224

Raoult, D., 518

Rice, Louis B., 501
Romanowski, Barbara, 187
Rosenberg, Helene F., 298
Rosenthal, Leonard J., 367
Russell, A. Denver, 147

Schwartz, Ira, 633
Sheehan, Daniel J., 40
Sheweita, S. A., 97
Sibley, Carol M., 40
Singh, Ameeta E., 187
Sobel, Jack D., 80
Stchigel, Alberto M., 454

Taylor, John W., 126

van Dam, Alje P., 633
Vazquez, Jose A., 80

Wald, Anna, 1
Wang, Guiqing, 633
Weltzin, Richard, 383

Zügel, Ulrich, 19

SUBJECT INDEX

VOLUME 12

- Antifungal agents
 - bacterial resistance, 501
 - mechanisms of resistance, 501
- Antineoplastic agents
 - antifungal activities
 - S. cerevisiae* as model system, 583
- Antiseptics
 - action, 147
 - activity, 147
 - resistance, 147
- Aspergillus flavus*
 - strain typing, 126
- Aspergillus fumigatus*
 - aspergillosis, 310
 - biology, 310
 - strain typing, 126
- Azole antifungal agents
 - current, 40
 - emerging, 40
- Borrelia burgdorferi* sensu lato
 - molecular typing
 - clinical implications, 633
 - epidemiological implications, 633
 - genotypic methods, 633
 - phenotypic methods, 633
 - taxonomic implications, 633
- Candida albicans*
 - strain typing, 126
- Candida glabrata*
 - clinical disease, 80
 - comparison to *C. albicans*, 80
 - epidemiology, 80
 - pathogenesis, 80
- Chagas' disease
 - autoimmunity hypothesis, 210
- Clinical Microbiology Reviews*
 - genesis
 - minireview, 183
- Coccidioides immitis*
 - strain typing, 126
- Coxiella burnetii*
 - Q fever
 - acute infection, 518
 - chronic infection, 518
- Cryptococcus neoformans*
 - strain typing, 126
- Cryptosporidium*
 - human cryptosporidiosis, 554
 - waterborne outbreaks, 554
- Disinfectants
 - action, 147
 - activity, 147
- resistance, 147
- Escherichia coli*
 - diffusely adherent
 - letter to the editor, 180
- Fungi
 - taxonomy, 454
- Haemophilus paragallinarum*
 - infectious coryza
 - chickens, 627
- Heat shock proteins
 - autoimmune diseases, 19
 - infectious diseases, 19
- Hepatitis B virus
 - diagnosis, 351
 - management, 351
 - prevention, 351
- Herpes simplex virus
 - genital
 - epidemiology, 1
 - serologic assays, 1
- Histoplasma capsulatum*
 - strain typing, 126
- Human cytomegalovirus
 - mechanisms of resistance, 286
 - resistant
 - detection methods, 286
 - infections, 286
 - transforming genes, 367
- Human herpesvirus 6
 - transforming genes, 367
- Infectious coryza
 - chickens
 - H. paragallinarum*, 627
- Intranasal antibody prophylaxis
 - viral disease, 383
- Letter to the editor
 - E. coli*
 - diffusely adherent, 180
- Microsporidia
 - molecular techniques
 - detection, 243
 - phylogenetic analysis, 243
 - species differentiation, 243
- Minireview
 - Clinical Microbiology Reviews*
 - genesis, 183
- Onchocercal keratitis
 - pathogenesis, 445
- Pathogenic fungi
 - iron
 - acquisition, 394
 - storage, 394
 - transport, 394
- Plant products
 - antimicrobial agents, 564
- Prion diseases
 - cellular biology, 429
- Q fever
 - C. burnetii*
 - acute infection, 518
 - chronic infection, 518
- Respiratory syncytial virus
 - respiratory tract infections
 - immune response, 298
 - immunopathogenesis, 298
 - treatment, 298
- Rhinoviruses
 - asthma, 9
- River blindness
 - pathogenesis, 445
- Saccharomyces cerevisiae*
 - action of antineoplastic agents
 - model system, 583
- Salmonella*
 - enterocolitis
 - host-pathogen interaction, 405
 - host-pathogen interaction
 - intestinal mucosa, 405
- Schistosomiasis
 - bladder cancer, 97
- Sleeping sickness
 - East Africa, 112
- Staphylococcal scalded-skin syndrome
 - exfoliative toxins, 224
- Staphylococcus aureus*
 - staphylococcal scalded-skin syndrome
 - exfoliative toxins, 224
- Strain typing
 - fungi, 126
- Syphilis
 - biologic features, 187
 - clinical features, 187
 - epidemiologic features, 187
- Viral genomes
 - human
 - molecular comparison, 612
 - subtyping, 612
